🏠 Dong Bac Street, Tan Chanh Hiep, Q.12, TP.HCM

SKILLS

- Programming & Frameworks
  - **C# / .NET Core** – Proficient in building scalable applications using .NET Core, ASP.NET Core, and the ABP Framework.
  - Web Development: Basic knowledge of **HTML, CSS, JavaScript, and Angular.**
- Database Management
  - SQL & ETL: Skilled in designing ETL jobs and writing advanced SQL queries. Experienced with: **MSSQL, Oracle, MySQL, and PL/SQL**
- Tools & Platforms
  - Project Management: Familiar with **Jira** for managing project tasks and tickets.
  - Version Control: Experienced with **GitLab and Bitbucket** for version control.
  - Cloud & Containers: Hands-on experience with **Docker, EKS** and integrating with cloud services like **Azure, AWS**, and **Google.**

LANGUAGES

- English : intermediate
  - Toeic LR : 765
  - Toeic SW : 260

HOBBIES

- Football: Enjoys both playing and watching the sport.
- Music: Passionate about exploring different genres.
- Reading: Enjoys a wide range of genres, from fiction to self-development.

SUMMARY

Enthusiastic and results-oriented Information Systems graduate with a strong foundation in C# and ASP.NET Core. Eager to leverage hands-on experience in developing microservices, optimising databases, and using cloud services to contribute to a collaborative development team as a Junior .NET Engineer.

EDUCATION

University of Information Technology - VNUHCM-UIT, 2020-2024

Address :Quarter 6, Linh Trung Ward, Thu Duc District, Ho Chi Minh City

- Bachelor of Information System
- GPA: 8.3/10 (3.5 years)
- I am a graduate of the Information Systems program at UIT, where I completed my studies one semester ahead of schedule.

WORK EXPERIENCE

Software Engineer (.NET Developer) at LizAI Vietnam

- Duration: 10/2024 - Currently
- Technical Skills: **C#, ASP.NET Core, Docker, .NET Core**, SQL & NoSQL databases,
- Working tasks :
  - Integrating with external healthcare provider systems, a built-in cloud storage service (Azure, AWS, Google), and database services for the inner platform.
  - Developed scalable APIs, gateway, and microservices using C#, ASP.NET Core, Docker, RabbitMQ, event streaming, Grafana, etc. Contributed to the Uplizd-Infrastructure project by developing the IaC Service (gRPC and RabbitMQ handlers) to automate the full lifecycle (deployment, scaling, backup, upgrade/downgrade) of services on EKS.
  - Research healthcare data standards such as OMOP, FHIR, and modernised legacy systems, leveraging microservices architecture for improved performance.

Software Development Engineer at Sacombank

- Duration: 06/2024 - 08/2024
- Has trained and worked with .NET, especially in **ASP .NET Core, ABP framework** (.NET 8), **Angular 17**.
- Working tasks :
  - Support ticket resolution and internal application development
  - Working on the modernization of legacy applications by adopting a microservice-oriented architecture using the ABP framework and Angular
  - Responsible for full-stack development, encompassing the design and implementation of database schemas, backend logic, and frontend interfaces

Database Developer Intern at Spiraledge VietNam

- Duration: 08/2023 - 11/2023
- Supporting and working over 50 tickets through JIRA
- Working tasks :
  - Served as the **Database Administrator** (DBA) for high-traffic platforms, www.tend.com and www.swim.com, managing **MySQL** databases and ensuring optimal uptime and functionality.
  - Troubleshooting and resolving problems in the database
  - Developed and optimized complex SQL queries, stored procedures, and functions to support backend operations and enhance performance.

SOME UNIVERSITY PROJECTS

- Fresh Food Website: ASP.NET Core backend with a user-friendly interface.
- Deep Graph Clustering Research: Research paper on clustering with dual correlation reduction.
- ETL Pipeline for WorldCup Data: Built with SSAS and SSIS for data integration and analysis.
